

INTEROFFICE CORRESPONDENCE

DATE: December 4, 1990 RTO-12.1-90

TO: D. R. Ferrier, Manager, Waste Operations, Bldg. T130A, X6456

FROM: *R.T. Ogg* R.T. Ogg, Remediation Programs Division, T130B, X7079

SUBJECT: PRESENT LANDFILL (OU7) CONTOUR GUIDANCE

Per your request, please find attached guidance for contouring/mounding criteria for the present landfill (OU7) as a function of continued operations. The intent of the landfill guidance document is to provide Waste Operations with a conceptual contour model that reflects a mechanism of continued waste (nonhazardous) disposal and placement of the waste in such a manner as to minimize precipitation infiltration into the landfill, to manage surface water run-off appropriately, and to provide a minimal transition effort for closure.

If you have any questions or comments regarding this guidance, please contact me at X7079.
